Templates and prompts pack

Social media caption prompt (for ChatGPT):

"Create 5 Instagram captions to promote **[service/product]** for **[target audience]** focusing on **[benefit]**. Keep it casual and motivating."

Website about page template:

"At **[business name]**, we help **[target audience]** achieve **[benefit]** using cutting-edge AI technology and creative solutions. Our mission is to make **[desired outcome]** simple and accessible for everyone."

Client outreach email template:

Subject: Quick question about **[their business]**

Hi **[name]**,

I noticed your **[business/website/social media]** and love what you're doing! I specialize in helping businesses like yours with **[service you offer]**. If you're interested, I'd love to send over a few ideas — no strings attached.

Would you be open to a quick chat?

Best,

[your name]

Early income blueprint: how to earn your first $200 fast

☆

Focus on "easy wins":

- Offer an "introductory" service for $20-$50
- Sell 4-10 services/products in your first week
- Use marketplaces (Fiverr, Etsy) + direct outreach to speed up sales
- Build urgency: Offer "limited" first spots or bonuses
- Automate simple tasks (content scheduling, emails) to focus only on earning

Example: Create 5 Instagram templates for $50 and sell them to 4 small business owners = $200

Scaling guide: reinvest and grow

When you hit $200, reinvest into: $

- Upgrading to paid AI tools for faster production
- Better branding (logos, websites, pro templates)
- Learning: Buy affordable AI marketing courses

Growth mindset: ↗

- Always track time vs earnings
- Streamline or outsource tasks as you grow
- Stay updated on AI trends and new opportunities
- Track your money and budget

Remember: The smartest side hustlers are reinvestors. They use early profits to unlock bigger earnings.
